

Intro / chorus hook:

There's only one way of life

And that's your own, your own, your own

Link: D D F G (×2)

1. My father when I was younger took me up onto the hill
That looked down on the city smog And above the factory spill
He said, "Now this is where I come when I want to be free"
Well he never was in his lifetime But these words stuck with me — hey!

2. D D F G (×2)
And so I ran from all of this and I climbed that highest hill
And I looked down onto my life Above the factory spill
And I looked down onto my life as the family disgrace
Then all my friends on the starting line, their wages off to chase
Yes, and all my friends and all their jobs And all the bloody waste

There's only one way of life
And that's your own, your own, your own
There's only one way of life
And that's your own, your own, your own

3. D D F G (×2)
Well I grew up, learned to love and laugh Circled A's on the underpass
The noise we thought would never stop Died a death as the punks grew up
And we choked on all our dreams We wrestled with our fears
Ideas that we were running through our minds...

4. And all the problems of this world won't be solved by this guitar
And all the people in this world won't be saved by this guitar
And all the problems of this world won't be solved by this guitar
And all the people in this world won't be saved by this guitar

(×2) There's only one way of life... and that's your own
